**Your Dogs CHUK category as eligible on the 1st January  
\* Leagues locked for this dog**

On the next page you need to check your information and **change your password**. Once you have changed your password and clicked submit, it will take you back to the page you were on. Scroll down the league list and decide whether you want to stay in the same leagues or change them (those that are medium now, will have to change their height to bring up the relevant leagues). Once you have done this you can scroll right to the bottom and submit the changes. Leagues can be changed right up to the time you enter points. Once you enter points, your leagues are locked and you can't change until the following year.

You can now enter places or Q runs through the year by clicking on the Add Points tab on the left hand side.

Only places with rosettes can be claimed (not award cards). If you went round clear but not placed with a rosette you can still claim points for the clear/Q run. The points are automatically calculated once you have entered the details.

Eligibility for Veteran, Veteran Plus, Junior and Senior are based on ages on the 1<sup>st</sup> January, not any birthdays throughout the year.

Bright Start is for dogs starting out competing in the current year. NFC runs don't apply, only competition runs.

The disability leagues are aimed at dogs who have disabilities that greatly affect their day to day life permanently not just the ability to do sports. Surgeries such as TPLO don't apply as dogs can recover and lead a normal life (remember its not disabilities that affect running in sports). Arthritis also doesn't apply, as this affects a majority of older dogs and can be managed.

Examples of disabilities that would apply are tripods, deafness, sight issues, Lumbosacral Disease, Spondylitis, Humeral Intracondylar Fissure, Hip Dysplasia.
